Automatic Ice Maker

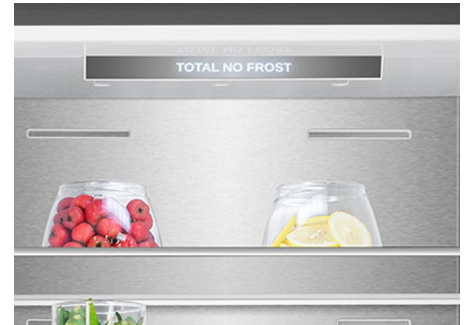

The automatic ice maker provides ice on demand whenever you need it — perfect for chilling drinks or keeping foods cold at a moment's notice.

LED Lighting

Bright, low-heat, energy-saving LED lights evenly brighten the fridge interior; longer service lifespan vs incandescent bulbs, no extra heat spoiling fresh food.

Frost-Free Cooling

The Total No-Frost cooling system circulates cold air throughout the refrigerator and freezer compartments, helping prevent frost buildup and eliminating the need for manual defrosting.

Digital Touch Control

User-friendly touch controls sit atop the fridge cabinet for simple operation, positioned out of young children's easy reach to prevent unintended setting adjustments.

Customizable Storage System

Equipped with 4 full-width adjustable glass shelves and 6 variable-size door racks, enabling flexible fridge storage layout to neatly arrange groceries of varying sizes and maximize interior space utilization.

Telescopic Pull-Out Crisper and Deli Drawer

Smooth telescopic slides allow complete drawer pull-out for easy access; independent storage spaces maintain ideal humidity to preserve veggies, fruits and deli foods for extended freshness.

Quick Cool Function

Quick Cool Mode temporarily lowers the refrigerator temperature to 35°F for 2 hours and 30 minutes — ideal for rapidly cooling new groceries or recovering the interior temperature after extended door openings.

Quick Freeze Function

Quick Freeze Mode sets the freezer to -18°F for 24 hours, helping to prevent thawing or softening of frozen foods when the freezer is opened for an extended period, such as when loading a large grocery haul.

Super Freeze Function

Designed for extended absences, Smart Mode sets the refrigerator to 41°F and the freezer to 0°F to maintain safe temperatures while minimizing energy use. Note: 41°F is the upper safe limit for food storage — this mode is intended for travel or vacancy, not daily use.
